April 17, 2015

The D2d DSMB met on April 1, 2015 to review study progress and discuss safety.

Safety data and adverse events were analyzed by the DSMB and no specific concerns were identified.

The recruitment rate has remained steady since the last DSMB meeting, except for a moderate slowdown during the holiday period at the end of 2014. Based on current projections, the Study Group expects to complete the study within the grant period and on budget.

The DSMB recommended that the D2d study proceed.
