Welcome to D2d Colorado

- Colorado site will be starting in the next 4 weeks.
- Hoping to bring in more Hispanic participants into the study

Update on SCR-BAS Pilot

- Sites that are currently using pilot are: Nebraska, Tufts, Maine, New York, and Florida.
- If pilot is implemented, sites will not be required to use this method.
- Will gather more data until the end of February and review.

Ancillary Studies Update

- Currently Approved with Funding Pending:
 - *Effects of vitamin D on skeletal muscle mass and performance in pre-diabetes*
 - *Contribution of free and total 25OHD in predicting progression to type 2 diabetes*
 - *Cognitive Benefits of Vitamin D in persons with pre-diabetes*
- Complete:
 - *Assessment of the (NDEP) GAMEPLAN toolkit in the D2d study*
 - Sites are filling out questionnaire at M03 visit.
- Currently Under Review:
 - *Does vitamin D3 supplementation have an effect on markers of DNA damage?*
 - *Vitamin D, Depression, and Cardiovascular Risk in Pre-Diabetes*

Assessing Vitamin D Testing by PCP

- Discussed creating different letter version to PCP asking not to measure vitamin D during study for D2d participants.
- Changes to letter or requesting not to measure vitamin D would require IRB approval

Action: Revisit discussion at next SC meeting

Reports Reviewed.
