Non-diabetes outcome task force report and plan

- The task force led by Erin LeBlanc, has met two more times since the last SC meeting and discussed how to collect the following non-diabetes outcomes [assigned leaders] formally during follow up visits.
 - Cancer [Ranee Chatterjee, Taso Pittas]
 - Cardiovascular outcomes- [Cyrus Desouza, Neda Rasouli]
 - Fractures- [Lisa Ceglia]
- The committee discussed concerns related to staff burden of collecting medical records for these outcomes and if we had power to make conclusions.

Action: Two sites will roll out a pilot test for collecting non-diabetes outcomes to assess burden.

Data Request Process

- Any data needed for publications should be requested through the CC first not the biostatistician.

Action: The CC will send out a memo regarding the data request process
