

SC Minutes from 8.13.15

Meeting Called to Order- 12:01pm | Adjourned- 12:52pm

Present: Daniel Hsia (Pennington), Raneer Chatterjee Montgomery (Duke), Chhavi Chadha (HealthPartners), Bess Dawson- Hughes (Tufts), John Foreyt (Baylor), Karen Johnson (Tennessee), Michael Lewis (Lab), Saul Malozowski (NIDDK), Elizabeth Thomas (UC Denver), Neda Rasouli (UC Denver), Betty Drees (Truman), Anne Peters (LA), Lawrence Phillips (Atlanta), Anastassios Pittas (CC), Philip Raskin (UT Southwestern), Patty Sheehan (CC), Myrlene Staten (NIDDK), Adline Ghazi (MedStar-Baltimore).

Ideas to Improve Communication between CC and Sites

- Committee suggested that CC should create a 1 page email that will be sent per month to highlight important information study wide.
- The site newsletter will be printed and mailed to sites instead of emailed.

Glycemia Algorithm Update

- Jason and Jim re-ran analysis and algorithm values will remain the same.
- All sites are now using the Central Lab.

Use of Metformin and Diagnosis of Diabetes Outside of Study

- Within the past month, sites have had more cases of participants on metformin.
- Sites should make sure the PI is communicating with the participant's PCP.

Reports Reviewed.
